Community Garden Annual Report

The garden completed its third season with twelve active beds and a volunteer roster of twenty-two members. This report summarizes the harvest and the plans agreed at the October meeting.

Harvest Summary

Three crops accounted for most of the season’s output. Totals below are weighed at collection and rounded to the nearest kilogram.

Crop	Beds	Yield (kg)
Tomatoes	4	118
Carrots	2	40
Kale	3	31

Plans for Next Season

The committee voted to add two raised beds, trial a shared compost rota, and move the tool shed closer to the water point before planting resumes in March.

Prepared by the volunteer committee. Questions to the noticeboard, please.
